

Dear Sirs, I am writing to urge your office to support the NJ Telephone Consumer Protection Act. The "rights" of a telemarketer to sell their wares or services should not supercede my right to peace and privacy in my own home, on my own time. If you work to overturn this protection for the public, that is the message you send. PLEASE do not let the public down on this matter. I have taken action to remove my number from their lists, do not take action to overturn my wishes. Thank you. Ann X. Sabatino
